Linux

MongoDB

## PROFILE

As a blockchain enthusiast and web developer, I have consistently demonstrated innovation and achievement. My dedication to mastering blockchain technology earned me a spot in the prestigious XRPL ambassador program for two consecutive cohorts. As the technical lead for my team, we won 1st place in the 2022 National TechHack Entrepreneurship Challenge. Recognized for my strong work ethic and impactful project delivery, I am eager to leverage my skills to drive significant advancements in the tech industry.

## EMPLOYMENT HISTORY

XRPL Campus Ambassador, Ripple

Feb 2023 — Dec 2023

- Selected for two consecutive cohorts of the prestigious XRPL campus ambassador program.
- Successfully led community outreach programs, increasing engagement by 30%.
- Conducted workshops on blockchain technology, resulting in 50+ participants gaining foundational skills.

## EDUCATION

Bachelor's, Gyalpozing College of Information  
Technology

Thimphu

Jul 2021 — Present

- Relevant Coursework: Web Development, Blockchain Technology.
- Projects:
  - Created a decentralized charity system on the XRP ledger, enhancing transparency and trust in charitable donations.
  - Built a decentralized travel booking system on the XRP ledger, streamlining the booking process with secure transactions.
  - Designed a DAO-based decentralized parliament voting system using Ethereum, promoting democratic and transparent voting.
